THE FUTURE IS DATA & AI

YOUR TIME IS NOW

AI-POWERED DATA ANALYTICS

Transform into a Data-Driven Professional in Just 100 Hours
Built by Educators. Powered by AI. Backed by Industry.

Why Now? Why Data?

Every day, the world generates 2.5 quintillion bytes of data. But data alone doesn't create impact— skilled professionals do.

This program is designed to help you become the data analytics professional the world needs—fast.

MEET YOUR PROGRAM DIRECTOR

Dr. Shiva Kakkar

Vice President of AI Adoption,
Jaipuria Group

Dr. Shiva Kakkar, a PhD from IIM Ahmedabad, brings a rich blend of academic and industry expertise. A former faculty member at XLRI Jamshedpur, he continues to teach at premier institutions like IIM Nagpur, MDI Gurgaon, and XLRI, specializing in Organizational Behavior, Strategic Technology Management, and the Future of Work.

Passionate about human-AI interaction and the practical applications of Generative AI in education, Dr. Kakkar is committed to making learning more interactive, accessible, and future-ready. He actively collaborates with academic and industry leaders to explore how AI can redefine learning experiences and shape the future of work.

WELCOME TO YOUR DATA ANALYTICS JOURNEY

The AI-Powered Data Analytics Program is a carefully designed journey that transforms curious minds into industry-ready data analytics professionals.

- Smart learning approach that works
- AI integration from day one
- Real business challenges as practice
- Industry experts as your guides
- 100% Job placement Assistance
- Campus Immersion

Our Mission

Turn you into the data professional that companies want to hire.

The Journey

Learn. Practice. Transform. Succeed.

Your 5-Phase Transformation Journey

PHASE 1

Build Your Foundation:

From Beginner to Confident Practitioner

- Excel Mastery : Advanced functions that impress
- Power BI & Tableau : Visuals that tell powerful stories
- SQL : Data access & management made easy
- Python Basics : Real-world problem-solving
- Statistics : Numbers that drive decisions

PHASE 2

Advance Your Skills:

Build Deep Technical Fluency

- Data Engineering : Build pipelines powering businesses
- Feature Engineering : Craft variables that predict outcomes

PHASE 3

Master GenAI Tools:

Become the AI-Enhanced Professional

- Prompt Engineering : Use GenAI as your ally
- Smart Automation : Automate manual tasks
- AI-Powered Analytics : Intelligent insights at scale
- BI 2.0 : Future-ready business intelligence

PHASE 4

Professional Development:

Become Industry-Ready

- Personal Branding : Build your presence as a data leader
- Communication Skills : Present data that influences decisions
- Interview Success : From clearing to converting offers
- Networking Skills : Build connections that matter

PHASE 5

Prove Your Expertise:

Turn Knowledge into Impact

- Capstone Project : Solve an industry challenge
- Multiple Certifications : Microsoft, IBM, & More..
- Industry Review : Get validated by experts

PROGRAM STRUCTURE
100+ HOURS OF IMMERSIVE LEARNING

Learning Method	Sessions	Hours
Live Expert Sessions	15	30 hours
Self-Paced Learning	12	53 hours
Industry Expert Classes	3	3 hours
Doubt Clearing Sessions	4	4 hours
Final Project	2	4 hours
Skills Tests	Regular	6 hours
TOTAL LEARNING	-	100 hours

CAPSTONE PROJECT: YOUR SHOWCASE

From problem to solution — just like in the real world.

Identify a real business challenge

Apply GenAI to enhance analysis

Collect, clean & analyze data

Build AI-powered insights

Present your solution to experts

PROGRAM HIGHLIGHTS

- 100 Hours of Industry-Relevant Learning
- GenAI Integrated from Day 1
- Live + Self-Paced Format
- Real Business Case Studies
- Capstone Project with Expert Review
- 100% Placement Assistance
- Weekend-Optimized Schedule
- Campus Immersion Experience
- Doubt-Clearing & Career Support Sessions

Who Should Join?

Graduates ready to future-proof their careers

Career Switchers from non-tech or adjacent fields

Working Professionals seeking weekend upskilling

Current Data Users wanting to grow into strategic roles

Meet Your Faculty

Dr. Shiva Kakkar

Vice President – AI Adoption, Jaipuria Group

PhD (IIM-A), Ex-XLRI. Thought leader in Human-AI & Future Skills.

> "We're not just teaching data analytics—we're building the next generation of AI-augmented business leaders."

Ms. Shakul Malik

Data Science Leader | 14+ Years Experience | Mentor at 30+ Institutions

Led projects at TCS, Tiger Analytics, Yubi, DRDO, and more

> "I don't just explain algorithms. I decode real business problems—with code, clarity, & context."

Dr. Khurram Shakir

Data Science Consultant, E&Y | Corporate Trainer

Trained professionals in ML, Deep Learning, NLP, SQL, Power BI & more.

> "I don't just explain algorithms. I decode real business problems—with code, clarity, & context"

Our Partners

LEARNER SUCCESS STORIES

"I joined just to get better at Excel. But by the end,
I was using Python and GenAI to drive real decisions.
This course changed how I think - and what I'm capable of."

Ananya Singh, MBA Graduate
Now a Senior Analyst

"I used to avoid SQL. Now I'm running campaigns based on data models I built myself. My marketing ROI has never looked better."

Rohit Malhotra, Brand Marketer
Now Leading Data-Led Campaigns

"I needed a program that fit into my weekends—and actually worked.
The structured learning, practical support, and career push gave me
the confidence (and edge) I was missing. I got a 45% hike after 3 months."

Sneha Jain, Working Professional
Now a Data Analyst

"Coming from a small town, I was intimidated at first. But the feedback, mentorship, and real-world projects made the learning feel real. Today, I work with Fortune 500 clients and present my analysis with confidence."

Aakash Rajput, Non-Metro Graduate
Now Industry-Ready

Your Certificate. Your Competitive Edge

Showcase your skills with a credential that hiring managers can't ignore.

READY TO LEAD IN THE AGE OF DATA?

THE FUTURE WON'T WAIT. NEITHER SHOULD YOU.

Build your data career—starting today.
